

# 5G – UK Legal Action

The Legal Eagle - fully awake now to the calamitous situation in which we might find ourselves, has chosen the 'King of Human Rights', Michael Mansfield QC with his legal team and Jessica Learmond-Criqui with Tim Buley QC, to lead the way to health and harmony for all life forms.

## CASE 1 - 5G JUDICIAL REVIEW

**Jessica Learmond-Criqui** is a Solicitor who has been investigating the nature of 5G since learning of the harmful health impact. Her aim is to obtain a change of government policy to stop the harm to UK residents by various measures, which include an immediate halt to the roll-out of 5G infrastructure until it is proven to be safe.

With the aid of **Tim Buley QC**, the High Court will be asked to review the stance taken by the Secretary of State for the Department of Health and Social Care and Public Health England. The claim will be for the judicial review of their policy of using ICNIRP's guidelines\* to set the limits of public exposure, which Jessica and many scientists say is too high, thereby, causing harm to humans.

*“Help us to protect your future”*

## CASE 2 - ACTION AGAINST 5G

This case is being brought by a group of individuals nationwide in the UK, including doctors, scientists and engineers, supported by a team of lawyers headed by **Michael Mansfield QC**, who have joined forces to commence legal proceedings to challenge the UK government's failure to take sufficient notice of clearly identified health and safety risks of wireless radiation and the increased exposure from the deployment of 5G.

*“The risks are foreseeable and preventable, current standards are not fit for purpose and obsolete. The case concerns defending our fundamental right to privacy and protection from experimentation.”*

(\* The safety limits are set by inadequate and outdated guidelines that allow exposures to wireless radiation greatly in excess of that recommended by hundreds of scientists)
